

Write-Logic

Additional testimonials

"As engineers and technical individuals, we see and deal with numbers. This program fine-tuned my skills to present data and communicate in the professional environment. The instructor is a true professional. Her method of mentoring combined with her friendly manner rates high on my list of value provided in this program."

PAUL SKRUPA
Engineer, O'Brien & Gere

"... the flexibility of the program was great. It works well for busy people who may not always have the time to complete modules in a given time." "This has been a great class, and I feel that it has greatly improved my technical writing. I will definitely recommend it to others. Overall, it has been a great learning experience."

CHRISTOPHER FUDGE
Graduate Engineer, HDR Inc.

"The instructor provided helpful feedback. [She] was flexible with my schedule when I had project deadlines coincide with these deadlines. Also, with practice, my work will require a less timely (and costly) review by a senior-level person."

KRISTIN CALLAHAN
Staff Specialist II, Regulatory Compliance, AECOM

"This has made me a much more informed writer. The more I utilize the correct approach the higher quality the documents."

STEVEN MCQUEARY
Project Director, Envirocon

"The writing tools (analysis worksheet, document checklist, etc.) are most valuable to me as I continue to improve my skills. As an engineer, I also appreciate the "structured" metrics that provide a baseline for drafting an efficient document."

ANDREW P.
EI, LEED AP GA, Moffatt & Nichol

"I enjoyed this training. It has proven to be an effective tool to improve my writing skills."

ANA JULIA PENA-TIJERINA
Environmental Engineer, Carollo Engineers

"The course was a great exercise in developing and maintaining good grammatical and structural techniques for writing."

AL BRULE
Project Director, Envirocon

"I am very pleased with the training and thankful for the assistance. It has become very helpful in preparing proposals and day-to-day internal communications."

BILL COTTER
Senior Project Designer, O'Brien & Gere

"Thank you for all your direction and feedback during this course. It has certainly improved both my ability and confidence in writing."

JUSTIN J. JOHNSON
Environmental Geologist, Haley & Aldrich

"The most valuable aspect of the training for me was the use of documents that I was presently putting together for a job. Additionally, the availability and knowledge of the trainer to answer additional questions that came up as I completed the exercises and writing practice was very valuable."

CHRISTOPHER D.
Engineer, Moffatt & Nichol

"This training is beneficial for technical writers and editors. My writing has improved by taking this course. I will continue to refer to the module lessons to improve my future writing assignments."

MELISSA J. BARKELL
Health and Safety – Document Control, Envirocon

"The class helped me improve my writing in many areas. I believe I will refer to the materials [on the CD-ROM] in the future to continually improve my writing."

Project Engineer, American Infrastructure

"This was my first online learning experience, and it was great ... It was a great learning experience."

ANA LETTY MARQUEZ
Project Engineer, O'Brien & Gere

"Organization of content, clarity, and grammar modules were the most helpful, although I benefited from all modules."

JEFF JOHNSON
Project Director, Envirocon, Inc.

"I found this training very valuable because it forced me to take a look at my writing in a closer, more critical way. I have been writing professionally for many years but have never really changed the way that I write. It was helpful to learn about ways to improve my writing that I did not know about before, or which I had not been implementing in my writing."

ALLISON M.
Public Outreach Assistant, Moffatt & Nichol

"I enjoyed working with (the Technical Reviewer) ... she understood my needs as we progressed through the class. I believe that I have improved on my writing and will continue to do so."

TIMOTHY J. STREET
Superintendent, Pizzagalli Construction Company

"The eight module technical writing program warrants a full endorsement. The format of the textbook, exercises, and written practices facilitate active learning while simultaneously identifying apparent flawed writing habits."

DEAN NIMMO
Design Engineer, O'Brien & Gere

"It was a great refresher course for me. The feedback was quick and insightful." "I thought the course was great."

DAN ROLLINS
Proposal/Marketing Coordinator, Envirocon, Inc.
